ADDITIONAL MATERIALS

In addition to this question paper, you will need the Resource Folder and a WJEC pink 16-page answer booklet.

INSTRUCTIONS TO CANDIDATES

Use black ink or black ball-point pen or your usual method. Do not use gel pen or correction fluid.

Answer ALL questions.

Write your answers in the separate answer booklet provided.
INFORMATION FOR CANDIDATES

The number of marks is given in brackets at the end of each question or part-question.

You are reminded that assessment will take into account the quality of written communication used in your answers.

You are reminded that this paper is synoptic and so will assess your ability to draw on your understanding of the connections between the different aspects of the subject represented in the Geography specification.

Even where not specifically asked for, you should support your answer with examples and/or case studies.
Answer ALL questions.

SECTION A

In this section you may use information from the RESOURCE FOLDER and your own research.

01 Outline TWO ways of classifying cities. [10] (approximately 13 minutes)

02 Explain how TWO factors influence the demand for water. [10] (approximately 13 minutes)

03 For ONE OR MORE cities, outline the main difficulties of, and solutions to, supplying water. [10] (approximately 13 minutes)

04 ‘Managing water supply and demand sustainably has an important effect on the quality of the environment.’ How far do you agree? [25] (approximately 33 minutes)
SECTION B

In this section you may use information from any of your studies for AS and A2 Geography as well as from the RESOURCE FOLDER and your own research.

05 Describe ways in which demand for energy can be reduced. How far can alternative sources meet energy demands sustainably? [25]

(approximately 33 minutes)
